

FROM THE PRINCIPAL

Dear Parents and Community Members,

Philomath Middle School is a positive, respectful, and student centered learning community. We are dedicated to preparing all students for success through times of growth and change by focusing on academic excellence and social responsibility.

The Oregon School Report Card provides a snapshot look at the achievement level and participation on the Smarter Balanced assessment, and of the programs that we believe are successful with engaging students in middle school. The results of the student performance on the Smarter Balanced assessment are compared to students and schools throughout the state of Oregon. Overall the results of the comparisons indicate that our students at Philomath Middle School are performing better than the state averages and in most cases out performing very similar or better than comparable schools.

While Philomath Middle School students continue to score significantly higher than the state average in mathematics, language arts, and science; we do have

areas to improve. This report card helps us identify key student group areas that need the improvement and further support. Philomath Middle School staff will continue to work diligently to provide both academic content and context opportunities for all students to demonstrate their knowledge and skill.

The middle school staff is focused on providing a productive and positive learning environment for all students, and we know that improvement is not possible without the partnership and relationships with students and parents. You can help by communicating with your child's teacher, participating in parent-teacher conferences, and attending school events. We are looking forward to an outstanding year of learning and growth at Philomath Middle School.

Thank you,

Principal | Steve Bell

OVERALL SCHOOL RATING

Given the recent passage of the Every Student Succeeds Act (ESSA) and the expiration of Oregon's ESEA flexibility waiver on August 1, 2016, the State of Oregon will not assign ratings (i.e., overall and comparison school ratings) to schools for the 2015-16 school year.
